USERS' GUIDE

Catalog Arrangement and Indexes

The bibliographic entries in the *Periodicals Supplement* are arranged in Superintendent of Documents classification number order. Each record is also assigned a unique catalog number, which consists of a two-digit prefix representing the catalog year. The catalog numbers are used to refer from an index entry to the corresponding bibliographic record. Within this arrangement, the publications of each government author are indentified by the name and address of the issuing agency. Users seeking the publications issued by a particular government author should consult the **Author index** for the correct catalog location.

The *Periodicals Supplement* contains collective records for serial publications which are issued three or more times each year. Records for serials issued twice annually or less may be found in the issues of the *Monthly Catalog. Periodicals Supplement* records represent current serial titles, discontinued titles, and title changes. Titles that have ceased during the preceding year are noted in the "Discontinued Periodicals" list, and this status is indicated in the bibliographic record. Title changes are represented by two bibliographic records; one for the old title and a second for the new title. If the classification number has not changed as a result of the title change, the classification number for the new title will be qualified by a trailing superior number, for example I 19.65:(nos.) 2. The bibliographic records for title changes and discontinued titles will appear only in the current *Periodicals Supplement,* and will be deleted in subsequent issues.

Periodicals Supplement entries may be accessed through the following indexes:

Author index: An alphabetical list of government, personal, and corporate authors, editors, and conferences.

Title index: An alphabetical list of titles proper, subtitles, and alternate titles.

Subject index: An alphabetical list of subjects derived from the *Library of Congress Subject Headings.*

Series/Report index: An alphabetical listing of series statements and tracings, series numbers, and report numbers.

Stock number index: An alphanumeric list of GPO and other sales stock numbers.

Title keyword index: An alphabetical list of truncated titles, arranged by important words in publication titles.

A **Margin index** on the back cover locates the six indexes. Listings in all of the indexes are followed by the cataloging entry number, which refers the user to the complete bibliographic citation. Listings in the **Title** and **Subject indexes** are augmented with the publications' author and classification number to enhance identification and retrieval. Cumulative indexes are published semiannually, annually, and quinquennially, and in addition to the indexes listed above, contain a **Classification number index** for all of the publications listed for the period of cumulation.

Abbreviations

The abbreviations used in the bibliographic records in the *Periodicals Supplement* are those described in the *Anglo-American Cataloging Rules,* 2nd edition, 1988 revision, and the *GPO Classification Manual: A Practical Guide to the Superintendent of Documents Classification System.*

SAMPLE ENTRY

Periodicals Supplement descriptive cataloging entries follow the precepts of the *Anglo-American Cataloguing Rules,* 2nd ed., 1988 revision, the Library of Congress Rule Interpretations, the *GPO Cataloging Guidelines,* and the Conser Editing Guide. The *Out-of-Print GPO Sales Publications Reference File* provides users with access to historical records for publications which were once available through the Sales Program. Two 6-year cumulations have been produced. The first was published in 1980 and is known as the Exhausted GPO Sales Publications Reference File (EPRF). It includes 25,000 items which went out-of-print at GPO between 1972 and 1978. The second, known as the Out-of-Print PRF (OPRF), was published in 1986. It contains 35,000 titles which went out-of-print between 1979 and 1984. The EPRF and the OPRF continue to be supplemented each year. Supplements are sold annually and will cumulate until a third 6-year set is available in 1992.

Copies of publications listed on the EPRF and the OPRF may be found in regional depository library collections. Copies of certain technical publications no longer sold by the Superintendent of Documents may be available from:

FEDERAL DEPOSITORY LIBRARY PROGRAM

The Federal Depository Library Program was established by Congress to provide free public access to Government publications. Nearly 1400 public, academic, State, and law libraries serve as an information link with the Federal Government by maintaining collections of Government publications. These collections, which are tailored to local needs, are open to the public. Fifty-four of the libraries are designated as regional depository libraries. They have the responsibility of retaining material permanently and providing inter-library loan and reference services in their regions. They also assist the other depository libraries with the disposal of obsolete material.

Copies of documents no longer available through the GPO Sales Program can usually be found in regional depository collections. A complete listing of regional depositories follows. To obtain a complete listing of all depository libraries, write to:
